# SUPERINTENDENT'S CORNER

Activity on the course is about to ramp up as we head into March. Spring will arrive, and as it does, the crew will be preparing for the course to green back up as we get into the growing season. The spring tournament season starts to kickoff, and we are looking forward to hosting several events on the course this month. Our spring pre-emergent herbicide program will begin this month. We are applying a granular herbicide in early March, followed by several liquid herbicides throughout the course soon after to suppress weed growth as the growing season begins. I have applications planned that should help fight the crabgrass surrounding the greens and the goosegrass on the greens. The irrigation team has put in some hard hours over the past couple months fixing and improving our irrigation system to get ready for the warm weather ahead of us. They have fixed many leaks throughout the course and repaired several heads that were not spraying properly or turning on properly. We are quickly making our way into the heart of 2026 and the course maintenance team has answered the bell so far and look forward to accomplishing more great work into the year!

**Garrett Dishman**  
**Golf Course Superintendent**
